

User Registration Help

User Registration allows partners doing business with Georgia Department of Transportation (GDOT) to request a GDOT Network User Account.

Partners will need to provide all the data with an “*” as these are required fields.

The “Organization” does not need to match the street address of the individual’s location, but rather match the correct Firm, Government Agency, etc..... For Example “Atkins Engineering” has many locations; when selecting the Organization you will likely find the “home” office rather than the local office; select the home office.

The “POC” is the GDOT person the partner has been interacting with and that will approve the request. If you do not see the person you have been interacting with in the drop down, contact that person and ask them whom in their management should receive the request.

Registration Form

First Name *	<input type="text"/>	User Email *	<input type="text"/>
Last Name *	<input type="text"/>	Organization *	<input type="text"/> <input type="button" value="Search"/>

If your organization is not listed in the drop down list, please [here](#). Please include your contact information and specific company information in the email body, and we will contact you to get this issue resolved quickly.

ID	Organization	Address	City	ST	ZIP	Alternative Names
